# about

---

LSI is amongst the leading architectural lighting solution providers in India. We have completed over 4000 projects – PAN India and overseas – in our last 21 years of operations. Our extensive body of work includes Airports, Museums, Hospitals, Villas, Commercial and Entertainment hubs, Hotels, Heritage Monuments, Offices and many others.

The focus of our company is to provide luxury lighting solutions for your interior and exterior spaces that align with your vision, imagination and style. LSI offers meticulously curated and flawlessly deployed superior design support, supply and installation services to its customers.

## **INNOVATE . INSPIRE . ENGAGE**

In our workfolio, we present a few flagship projects that reflect our commitment to innovation and that have inspired many to design engaging lighting applications for exterior and interior spaces.

# Customer **Journey**

## **SCHEDULING A MEETING**

A meeting is scheduled with the client to understand their project and requirements well. A meeting also helps us explain to our client how we can add value to their ideas/ projects.

## **ADDRESSING A QUERY**

We are keen to answer customers query and we ensure that they are answered well.

## **PROJECT EXECUTION**

In the final stage, our team of experts ensure that the project is executed with utmost precision and on time.

## **EXPERIENCE CENTER & IDEATING**

We schedule an experience center tour with the client, where they can get real-time experience of our lighting applications and work through all the possibilities and limitations. This helps us curate the right design for their space.

INNOVATE . **INSPIRE** . ENGAGE

# **EXPLORE** THE **POSSIBILITIES** WITH LIGHT

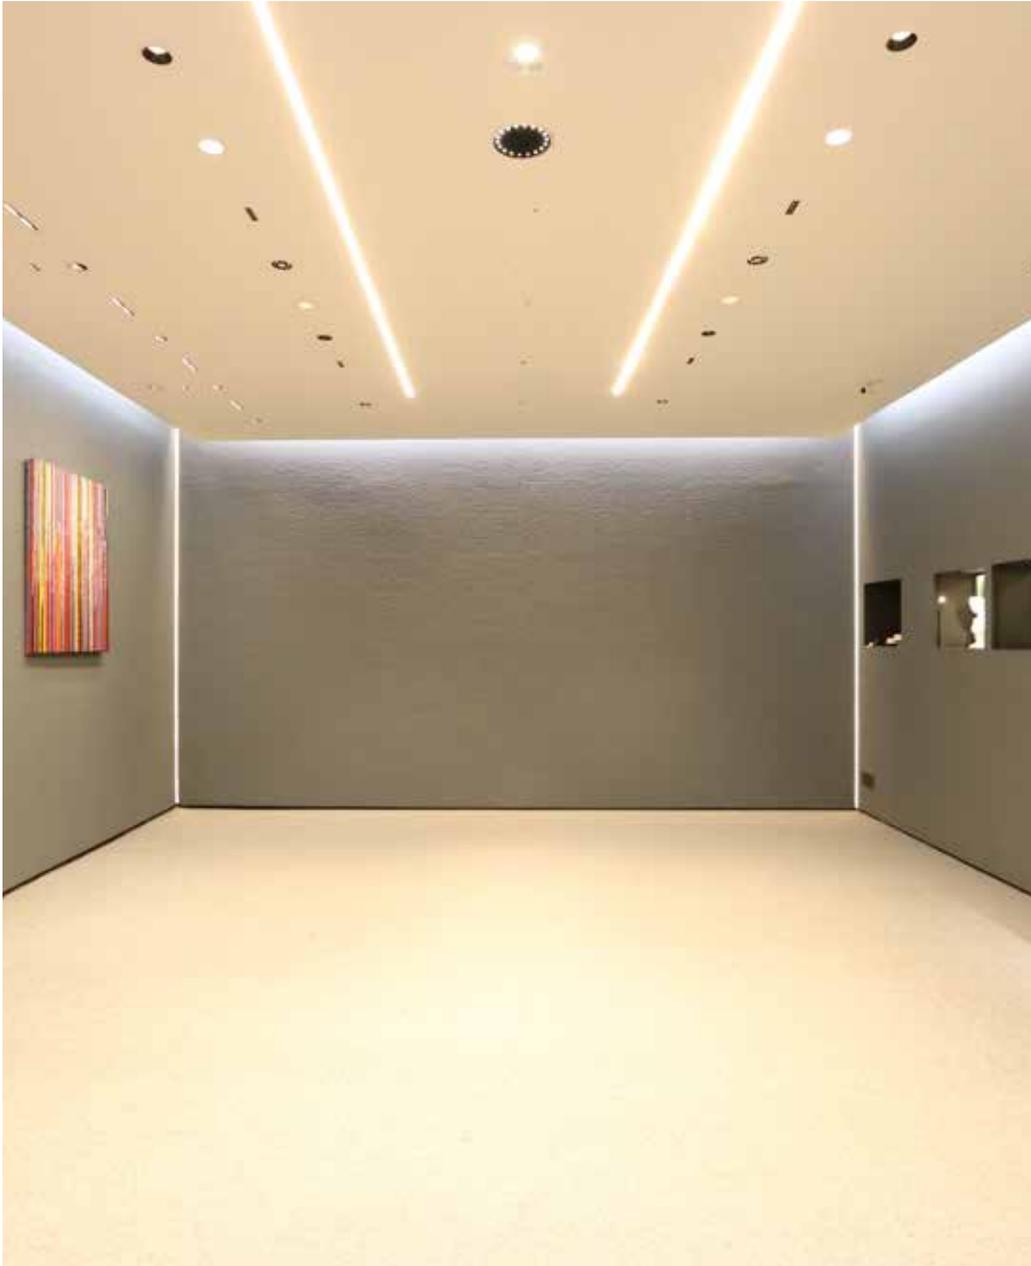

## LIGHT STUDIO

To truly fathom how these products can enhance space design, you need to see them in their application environment.

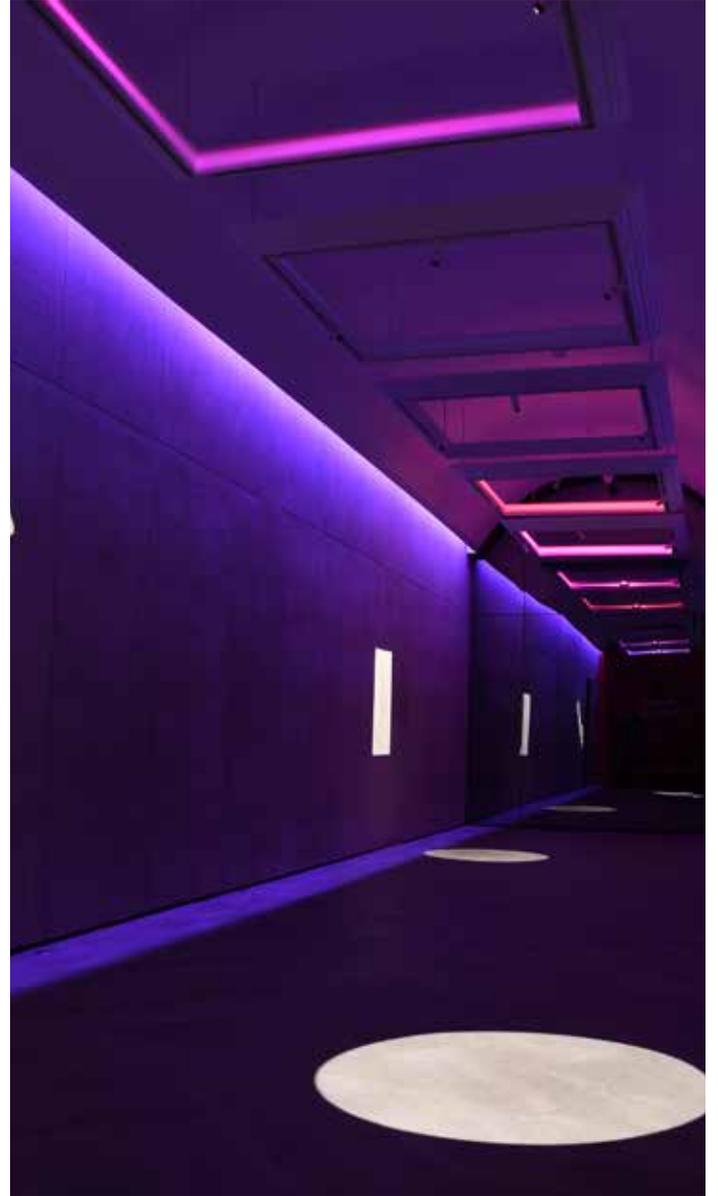

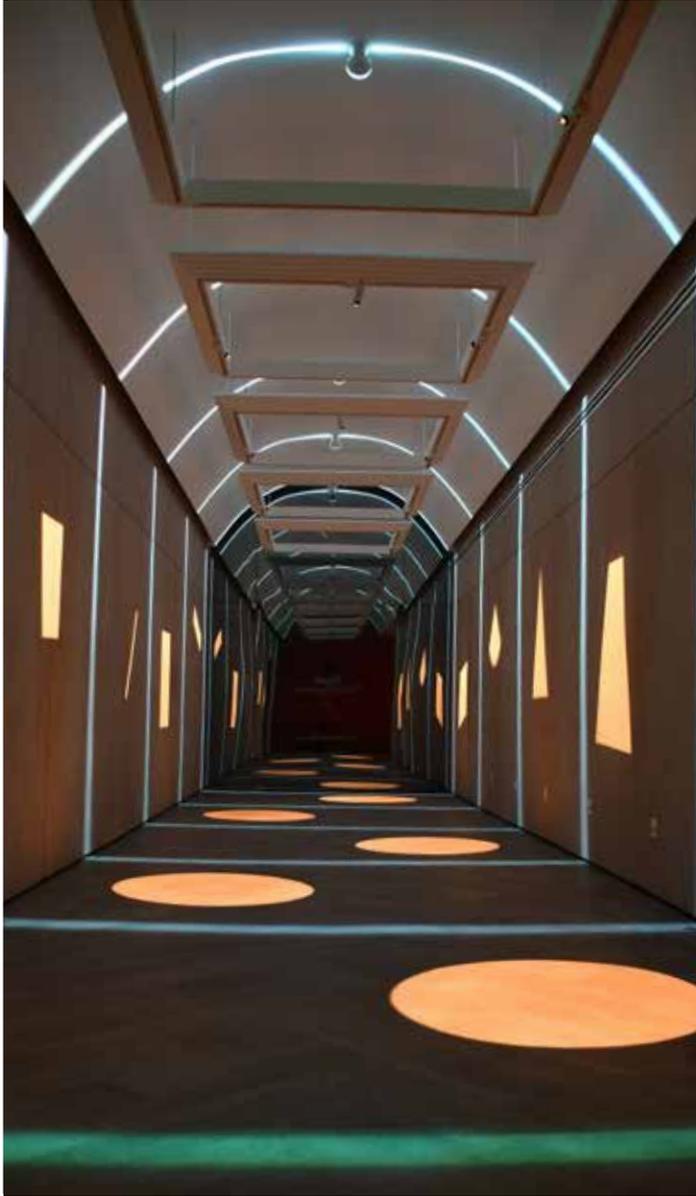

We have curated Experience Centers in Delhi, Mumbai, Bangalore, Chandigarh and Nashik to showcase innovative applications of the lighting products we offer in their real-time interior and exterior environments.

Our accomplished team of engineers, designers, technicians, and brand custodians are available to provide a live demo of these lighting systems.

The Golden Temple, Amritsar, India (Sri Harimandir Sahib, Amritsar) is not only a central religious place of the Sikhs, but also a symbol of human brotherhood and equality. The approach street leading to the Golden Temple has been designated to be a heritage street and accordingly all facades along this street have been refurbished and given a new identity, yet reminiscent of Amritsar that existed 400 years ago.

The above façade(s) along with newly Constructed Ranjit Singh Chowk have been lit using products from iGuzzini & LED Linear.

The Bihar Government has developed a Buddha Smriti Park in Patna to commemorate the 2,554th birth anniversary of Lord Buddha. The park also has a museum, designed by UK based Lord Design, where Buddhist relics from Japan, Myanmar, South Korea, Sri Lanka and Thailand have been installed.

Lighting design, by Lighting Concepts, highlights the intriguing and exceptional artworks on display at the museum.

LSI has supplied majority of lighting equipment for this project, using products from iGuzzini and LED Linear.

Delhi Government undertook restoration of many hidden heritage monuments within the national capital.

Illuminating these monuments was part of the overall architectural restoration process. The idea was to enthuse new life into these historical sites and create renewed interest in them for the tourists, especially during the 2010 Commonwealth Games.

The lighting at these monuments is a visual treat. Lighting Design for the projects was carried out by Mandala Design Forum and Lucent Consultants.

LSI supplied complete lighting equipment for the projects and was pro-actively involved through the entire process.

The beautiful façade of this project is a prominent feature of the building and has a long visibility range. The modern architecture of this building has been lit effectively by a range of products resulting in an aesthetically pleasing office space.

WORLD TRADE CENTER  
PUNE

World Trade Center (WTC), Kharadi, Pune is promoted by one of India's renowned and finest luxury real estate developers - Panchshil Realty. This is India's fourth operational World Trade Center strategically located in close proximity of the airport and spread over appx. 160000 Sq. ft.. This super-specialized WTC offers world-class facilities and infrastructure, thus providing an opportunity to grow and foster international business.

As the Entrance Lobby of any organization is the first impression

visitors get that shapes their expectations and impressions, it is of paramount importance that such places are also well lit for day and night time usage of the space.

To achieve this perfect lighting experience, Lighting designers "Lighting Concepts - Pune" had been appointed by the developers and LSI has been privileged to have supplied products from iGuzzini - Italy to achieve the desired results envisioned for the project.

The new corporate office for Metro Shoes has been built over 30,000 sq. ft. at Kanakia Zillion, Mumbai. Designed by well-known Mumbai based architects 'Design Matrix', the interior space has been meticulously conceived to meet the needs of a growing organization.

LSI was introduced to the project early in the design stage. Working closely with the architects, the LSI team provided assistance in planning of lighting equipment besides adding value through

innovative and technologically superior LED lighting products from leading brands like iGuzzini, LED Linear, IBL and Studio Italia. The result is a well-lit, aesthetically pleasing and energy efficient office space.

Golf Links Software Park (GLSP) is a large software campus located next to the Karnataka Golf Course, Bengaluru.

It is well populated with companies like IBM, Yahoo and CSC occupying large spaces for corporate use.

DPA, U.K had been hired by GLSP to master plan the lighting requirements of the campus including roadways, landscape and building facades. LSI has supplied

majority of the lighting equipment required for this master plan, in addition to providing assistance in their installation.

LSI's corporate office at MG Road in Delhi has been tastefully designed by DCA Architects. They have adopted an industrial look with most finishes in their bare and raw state.

Being LSI's own corporate office, extensive attention to detail has been given with regards to lighting needs of the office with minimal use of lighting equipment and incorporating latest technology.

LEDs have been used extensively for task and accent lighting needs of spaces with careful selection of color temperatures to distinguish between work and relaxing areas of the office.

Products from most LSI brands such as iGuzzini, LED Linear, iLight etc. have been used as per their appropriate applications.

Rambagh Palace in Jaipur is part of The Taj Group of hotels and is a heritage property. It has been renovated by ASA Design (Jaipur), who were also principal lighting designers for the project, with assistance from LSI.

A wide array of specialized high quality lighting products have been used during the renovation process. Special lighting control equipment from iLight, UK has been installed in all guest rooms of the hotel.

Umrao Hotel is located on the busy National Highway 1, close to the Delhi-Gurgaon border.

The property is designed as a banqueting venue for corporate and family events. Major emphasis, therefore has been given to outdoor spaces by the designers, Architect Rajeev Khanna and Associates.

LSI provided design assistance in addition to supply of complete light equipments and control systems for the hotel, including commissioning and its installation. High end indoor and outdoor lighting products have been used.
